Despite its vast scale, only 15% of the area is developed, ensuring a harmonious blend with the natural surroundings, and each of its nine rows is meticulously designed and constructed across multiple levels. One of Safia's highlights is its impressive 750-meter beachfront, offering unparalleled views and elevations ranging from 3m to 40m above sea level to ensure a full sea view and access to the sea. With a project depth of 1500 meters, the project incorporates water features such as tranquil lagoons and swimming pools.
